

Expand merchandising capacity and sales.

Want to maximize existing cold vault space? Add available space to existing flat or angled cold vault shelving configuration instantly with the Expandable Add-A-Shelf. Install in minutes - no tools required. Flexibility to reset merchandise easily for ever-changing needs or new planogram requirements. Durable design and adjustable width for repeat use and customization while reducing restocking labor and increasing sales.

- Increase sales and turnover using vacant cold vault space
- Compatible with existing cold vault flat or angled shelving
- Expandable to various widths to fit more applications
- Increase visual impact and product accessibility
- Steel construction provides long-lasting strength and durability

Merchandising space is limited and new store configurations are expensive. Customize existing space and maximize sellable inventory for increased sales and turnover. Great for impactful displays for LTOs and seasonal planograms.

Maximize Existing Space

Compatible with existing flat or angled shelves. **Fits any width in standard and extended depths.** Supports standard and extended Visi-Slide product line.

Easy To Install

Simple, flexible application and **no tools needed.** Includes (4) S-hooks allowing for easy and durable installation.

Reduce Labor, Increase Revenue

Avoid out-of-stock situations (OOS), optimize cold storage capacity, and **reduce restocking frequency.**

Merchandising Excellence

Durable and impactful displays that encourage industry best practices for impulse purchasing.

Planogram optimization

Optimize cold vault space to capitalize on LTOs or new flavors without disrupting existing shelving. Reuse as you reorganize your space.
