

Features

Spring-Loaded Beverage Pusher-Glides

Drive merchandise forward as product is shopped — ensuring shelves appear stocked and products are easily accessible

Integrated Track System

The pusher and spring system are locked within a channel to ensure long lasting performance

Brand Exposure

Promote products and flavors to shoppers with clear unobstructed visibility

Robust Design

Strong, durable front ring and refined high wall design keep product upright and organized providing the consumer optimal visibility for a pleasurable shopping experience

Recyclability

Manufactured from recycled and reprocessed polypropylene to support environmental sustainability initiatives

Scooped Front Lens

Allow product to be pulled directly forward when stocking and shopping product — minimizing required height clearances and allowing for more vertical shelf space and product

Customizable Breakaway Depths

Size adjustable with easy breakaway sections allow store owners and installers to modify various depths and widths

Modular Lanes

Connect different glide sizes to accommodate various product sizes — achieving and maintaining plan-o-gram compliance

Easy to Install

Save time and labor with Visi-Fast's standard 22" product depth — avoid wasteful modifications by installing out of the box direct-to-shelf, no tools required
