

Upgrade your Glass Door Coolers.

The injection-molded Visi-Xtra® delivers single-serve organization for glass door coolers. It's pre-molded to size for quick, easy installation on cooler shelves to deliver consistent flat or angled product presentation, resulting in reduced labor, elimination of waste, and increased pack-out in specific coolers.

- Increased pack-out in specific coolers
- Pre-fit for common model refrigerators for fast, efficient installation, drastically reducing set-up labor costs
- Shelf organization allows for consistent planogram integrity
- Increased sustainability with no cutting or breaking of the Visi-Slide, providing waste reduction

Gain extra facings for high-volume SKUs, brand launches, or limited-time offers by capitalizing on neglected interior space in specific coolers.

Quick, Easy Installation

Pre-fit for common cooler models, **reducing set-up labor costs.**

Reduction in Carbon Footprint

Molded to size, eliminating up to 50% waste, no breaking or cutting necessary, reducing carbon footprint.

Consistent Planogram Integrity

Shelf organization allows for consistent planogram integrity.

Recyclable

Made of virgin polypropylene and easily recycled.

Brand Exposure

Clear front ring allows for **maximum brand exposure.**
